**ALLOWANCE OF INTERIM COMPENSATION**

48. With respect to the level of compensation, section 330 of the Bankruptcy Code provides, in pertinent part, that the Court may award to a professional person, “reasonable compensation for actual, necessary services rendered.” Section 330(a)(3), in turn, provides that:

In determining the amount of reasonable compensation to be awarded . . . , the court shall consider the nature, the extent, and the value of such services, taking into account all relevant factors, including –

- (A) the time spent on such services;
- (B) the rates charged for such services;
- (C) whether the services were necessary to the administration of, or beneficial at the time which the service was rendered toward the completion of, a case under this title;
- (D) whether the services were performed within a reasonable amount of time commensurate with the complexity, importance, and nature of the problem, issue, or task addressed;
- (E) with respect to a professional person, whether the person is board certified or otherwise has demonstrated skill and experience in the bankruptcy field; and
- (F) whether the compensation is reasonable based on the customary compensation charged by comparably skilled practitioners in cases other than cases under this title.

11 U.S.C. § 330(a)(3).

49. The congressional policy expressed above provides for adequate compensation in order to continue to attract qualified and competent professionals to bankruptcy cases. *See In Re Busy Beaver Bldg. Ctrs., Inc.*, 19 F.3d 833, 850 (3d Cir. 1994) (“Congress rather clearly intended to provide sufficient economic incentive to lure competent bankruptcy specialists to practice in the bankruptcy courts.”) (citation and internal quotation marks omitted); *In re Drexel Burnham Lambert Group, Inc.*, 133 B.R. 13, 18 (Bankr. S.D.N.Y. 1991) (“Congress’ objective on requiring

that the market, not the Court, establish attorneys' rates was to ensure that bankruptcy cases were staffed by appropriate legal specialists."").

50. Applicant asserts that in accordance with the factors enumerated in 11 U.S.C. § 330, the amount requested is fair and reasonable given (a) the complexity of these cases, (b) the time expended, (c) the nature and extent of the services rendered, (d) the value of such services, and (e) the costs of comparable services other than in a case under this title. It is respectfully submitted that, had counsel with less experience in these types of matters been retained, the cost to the estate would have been much greater.

51. No agreement or understanding exists between Applicant and any other entity for the sharing of compensation to be received for services rendered in or in connection with this chapter 11 case. The fees charged by Applicant in these cases are billed in accordance with the existing billing rates and procedures in effect during the Interim Period. The services rendered by Applicant were necessary and beneficial to the Committee, consistently performed in a timely manner, and reasonable in light of the value of such services to the Committee, Applicant's demonstrated skill and expertise in the bankruptcy field, and the customary compensation charged by comparably skilled practitioners. Applicant, by experience, training, and ability, is fully qualified to perform the services for which compensation is sought here. Applicant represents or holds no interest adverse to the Committee with respect to the matters upon which it is engaged. Accordingly, Applicant submits that approval of the compensation for professional services and reimbursement of expenses sought herein is warranted.

**NOTICE, PRIOR APPLICATION AND CERTIFICATION**

52. Notice of this Application has been provided in accordance with the Interim Compensation Order. Applicant submits that the foregoing constitutes good and sufficient notice and that no other or further notice need be provided.

53. No previous application for the relief sought herein has been made to this or any other court.

54. Applicant has reviewed the requirements of the Local Rules and certifies that this Application complies with the Interim Compensation Order and the applicable provisions of the Bankruptcy Code, the Bankruptcy Rules, and the Local Rules.

***[Remainder of page intentionally left blank]***

**WHEREFORE**, Applicant respectfully requests interim allowance of compensation for Applicant's duly authorized, necessary and valuable service to the Committee during the Interim Period in the aggregate amount of \$4,865,202.50 and reimbursement of actual and necessary expenses incurred by the Applicant in the amount of \$31,605.81 for the period from October 1, 2019 through January 31, 2020, and awarding Applicant such other and further relief that this Court deems just and proper.
